Leading the Way

Modern farming is about more than just planting seeds. It encompasses many areas of business, science and technology, from marketing to biology to mechanics. That's why we're proud to salute the students who have chosen farming as their career path. Future Farmers of America, you're headed for success.

N-K celebrates 2026 National FFA Week, February 21-28

National FFA Week always runs from Saturday to Saturday and encompasses February 22, George Washington's birthday. This year, the week kicked off on February 21 and culminates on Saturday, February 28.

The National FFA Board of Directors designated the weeklong tradition, which began in 1948, recognizing Washington's legacy as an agriculturist and farmer. A group of young farmers founded FFA in 1928, and the organization has been influencing generations that agriculture is more than planting and harvesting — it involves science, business and more.

The National FFA Organization is a school-based national youth lead-

ership development organization of more than 1,042,245 student members as part of 9,407 local FFA chapters in all 50 states, Puerto Rico and the U.S. Virgin Islands.

National FFA Week proclamation February 21-28, 2026

Whereas, FFA and agricultural education provide a strong foundation for the youth of America and the future of food, fiber and natural resources systems; and

Whereas, FFA promotes premier leadership, personal growth and career success among its members; and

Whereas, agricultural education and FFA

ensure a steady supply of young professionals to meet the growing needs in the science, business, and technology of agriculture; and

Whereas, the FFA motto — "Learning to Do, Doing to Learn, Earning to Live, Living to Serve"

— gives direction and purpose to these students who take an active role in succeeding in agricultural education; and

Whereas, FFA promotes citizenship, volunteerism, patriotism and cooperation.
